PERSONAL PROFILE

I'm Adrian, an enthusiastic web developer with a passion for technology and learning new things. I can build websites using modern technologies like React, Next.js, and databases using software like Firebase, MongoDB etc. My career goal is to succeed as a software developer by building industry-standard apps and continuously learning new technologies.

KEY SKILLS

- **Applications:** Microsoft Office Suite (Word, Excel, PowerPoint), Adobe Illustrator, Photoshop, Premiere pro, WordPress, Linode (server hosting), Canva, GitHub(Version Control Systems), Netlify, Docker (Containerization and Virtualization), VMWare(Virtualization), Oracle VM, Trello (Project Management), AWS (Amazon Web Services), DigitalOcean, Shopify, Raspberry Pi 4, Arduino, Electron.
- **Programming Languages:** CSS, HTML5, PHP,JavaScript, JSON, React, Next, SASS, JQuery, NPM, Express.js, Python, Node.js, Vue.js, Tailwind, APIs.
- **Operating Systems:** Windows XP/7/8/10/11, Linux, MacOS.
- **Database Systems:** MySQL, SQL Server, Mongo DB, Firebase.
- **Customer Service Experience**
- **Reception and Administration Skills**
- **Ability to approach complex problems methodically and find efficient solutions.**
- **Precision in coding, debugging, and understanding requirements.**
- **Flexibility to learn new technologies and adapt to changing project requirements.**
- **Working well within a team, understanding roles, and contributing to collective goals.**
- **Prioritizing tasks, meeting deadlines, and managing workloads.**
- **Clean Driving Licence and own transport**
- **Languages:** English(fluent), Romanian(Native), Russian(Basic).
